

## **Call for research mentors**

### **Introduction**

Mentorship is very important in launching individual research careers, building research teams at the group level, and sustaining research institutions over time. Research mentorship contributes to the career development by instilling a culture of learning through research, generating knowledge, and communicating findings. Nurturing research mentorship within Ethiopian Society of Internal Medicine (ESIM) helps to improve quality of research outputs and health service.

### **Eligibility criteria**

A candidate for mentor should

1. Be ESIM full member who is an Internal Medicine Physician with no outstanding membership fees
2. Have at least 10 peer- reviewed publication, of which at least worked as a corresponding or first author on two of the publication
3. Be willing to mentor other internal medicine physician

### **Selected mentors roles**

1. Will serve as research mentor for ESIM member internal medicine physician who will win ESIM grant
2. Expected to support the mentee on research proposal development, conduct and analysis and report writing of the study and publication and dissemination

### **Recognition of Mentors**

1. Will be recognized by ESIM for the contribution to strengthen research capacity of ESIM members
2. ESIM will arrange some compensation for the time for mentor

### **How to apply**

Those who fulfil the above criteria should email confirmation of their Interest and their CV to ESIM secretariat [esim20014@gmail.com](mailto:esim20014@gmail.com)

### **Deadline**

10 March 2023
